published online 28 November 2017

Following publication of this article, the authors noted that the bands of Na-K ATPase in Figure S1B were mislabelled when selecting representative blots, and were erroneously duplicated from GluA2. However, the data

analysis was still made with the correct immunoblots. The Supplementary Information file has now been updated to include the corrected Figure S1 with the correct western blot bands of Na-K ATPase.

The authors would like to apologise for this error and the inconvenience this may have caused. This has been corrected in both the PDF and HTML versions of the article.
