Correction to: *Spinal Cord Series and Cases* <https://doi.org/10.1038/s41394-024-00625-6>, published online 09 March 2024

In the original article, the 3rd sentence in the second paragraph “The employment situation for people with SCI in Thailand” of the Introduction reads as follows:

Although there has been no validated data, this number has been calculated from the estimated incidence of SCI in the country, resulting in the incidence of 23 cases per 100,000 population per year [8].

This sentence should read correctly as follows:

Although there has been no validated data, this number has been calculated from the estimated incidence of SCI in the country, resulting in the incidence of 23 cases per 1,000,000 population per year [8].

The original article has been corrected.
