Correction to: *Nature Geoscience* <https://doi.org/10.1038/s41561-018-0235-0>, published online 8 October 2018.

In the version of this Article originally published, in Fig. 3a the peak values of M in the northern and southern mid-latitudes in one hemisphere were incorrect. In addition, the two hemispheres were labelled incorrectly. The hemispheres should have been as shown below. This has now been corrected.

Correction to: *Nature Geoscience* <https://doi.org/10.1038/s41561-019-0478-4>, published online 28 October 2019.

In the version of this Matters Arising originally published, in the third from last sentence of the last paragraph, the word 'not' was mistakenly omitted; the sentence should have read: 'Therefore, although we do not advocate prescribed burning everywhere, we merely suggest that it be considered as a tool in our armoury to mitigate wildfire impacts, and hence our research is timely.' This has now been corrected.
