Burton  & Saman Maleki Vareki 

In the version of this article initially published, there were errors in Supplementary Figure 1, where patient 802-4 was listed as a recipient of donor 1 when in fact it was donor 2, and patient 623-7 was mistakenly labeled “623-8”. The figure has been updated and the caption now instructs researchers that patient 623-07 is labeled as 623-08 in the BioSample record ([https://www.ncbi.nlm.nih.gov/biosample](https://www.ncbi.nlm.nih.gov/biosample/L623_P8_S3_postFMT_postICI_3weeks) (L623_P8_S3_postFMT_postICI_3weeks)). In addition, the “Fecal microbiota transplantation” section of Methods contained a typographical error: transplantation capsules contained 80–100 g, not mg, of feces. The errors have been corrected in the HTML and PDF versions of the article.

In the version of the article initially published, there was an error in Fig. 1a where the “Actin” blot mistakenly replicated the “Akt” blot; the original and revised panels are shown as Fig. 1 below. There was also an error in the caption for Fig. 1b where the text “refeeding after 24-h fast” should have read “refeeding after 18-h fast”.
